

Name of the subject / course	Mathematics
Level	AI SL 1
Teacher	Tomasz Lechowski
Teaching hours per week	4
External Assessment – examination	Paper I (40%) Paper II (40%)
Internal Assessment	Mathematical Exploration (20%)
Passing conditions	To pass a year, student must: - Obtain passing final grade (at least 2) - Reach 70% attendance rate
Online classroom	Online classes are conducted (when applicable) on the MS Teams platform.
Contact information	Via LIBRUS

1. Marking criteria:

The following assessment methods will be used throughout the year:

- Long Tests after each chapter; weight: 4
- Short Tests after a couple of lessons; weight: 1
- Homework assessment; weight: 1
- End of term examination; weight: 4

The percentage score for the above assessments will be converted into a grade on 1-7 scale according to the following:

Percentage score	Grade
[0%, 40%[1
[40%, 47%[2
[47%, 56%[3
[56%, 65%[4
[65%, 75%[5
[75%, 84%[6
[84%, 100%]	7

Long Tests

You will be informed about the date of a test at least a week in advance.

Short tests

You will write short tests regularly with the aim to check your process of learning and my process of teaching. Short tests cannot be retaken.

Homework assignments

You may be given homework assignments.

Mock examination

Mock exam will be held once a term (most likely in December or January and then in May or in June). Mock exams cannot be retaken.

Internal assessment - exploration

If you supply your first draft during the green period you will receive full help and feedback. The green period ends in October IB2

You are expected to supply the final version of your exploration in one month after obtaining a feedback from your teacher.

The red period starts 1st March of IB2. If you supply your exploration during the red period you do not receive any feedback and it is possible that your teacher will not be able to check your work.

The end of the term grade will be calculated as the weighted mean of your grades you will get during the term and the grade will be awarded as follows:

Weighted mean	Final grade
[1.00, 1.90[1
[1.90, 2.70[2
[2.70, 3.70[3
[3.70, 4.70[4
[4.70, 5.70[5
[5.70, 6.60[6
[6.60, 7.00]	7

2. Test retake policy:

Each long test can be retaken once. The grade from the first test will be given weight 1 and the grade from the retake will be given weight 4

If you cannot take part in the end-of-unit tests and retakes (justified absence), you will have to pass an extra test. The time and date of this test will be agreed with the teacher.

3. Final grade:

The end of the year grade will be calculated as the weighted mean of your grades you will get during the year and the grade will be awarded as follows:

Weighted mean	Final grade
[1.00, 1.90[1
[1.90, 2.70[2
[2.70, 3.70[3
[3.70, 4.70[4
[4.70, 5.70[5
[5.70, 6.60[6
[6.60, 7.00]	7

4. Late arrivals:

- Late arrivals for classes are only up to 15 minutes, after that the student is considered absent.
- If the student is late for attendance check, he/ she has 1 week to inform the teacher via schools online register (librus) that his/her absence should be corrected. Otherwise the absence remain.

5. Grade predictions:

For the University purpose

- Predicted grades for University based on all the grades that student obtained during the course (including first year and 2nd year up to the moment when the grade is awarded).
- Predicted grade for University admissions can be increased by 1 (it is not obligatory), if the student supplied the first draft of her/his Internal Assessment before the time when the predicted grade is awarded.

Final predicted grade

- a. Final predicted grade (uploaded to IBO system) is based on the grades from both DP1, DP2 and final version of IA. It can be modified by teacher based on his assessment of student's progress in the final months leading to the external exam. Students will not be informed about teachers prediction uploaded as "final predicted grade".

6. IBIS uploads:

- a. Internal Assessments report is uploaded to IBIS by the teacher.

7. Timetable for 2021/22 school year:

IA deadlines: (Applicable to DP2 only)

1. 31.10.2022: green deadline – students will receive full feedback;
2. 22.12 2022: yellow deadline - students may not receive full feedback, only minor comments;
3. 1.03.2023: red deadline - student's will not receive any feedback. Their work may not be uploaded to IBIS and therefore students may not receive the Diploma.
